

## LIONS QUEST PROGRAM - CABINET REPORT

### MEMORANDUM

Date: October 1, 2022

To: District Governor Rose Burrus

Re: Cabinet Report for Lions Quest Program Committee, July 1 – Sep 30, 2022

The following sections provide a summary of completed activities, key findings, and the proposed way ahead for the Lions Quest Program in the remainder quarters of Lions Year 2022-2023.

- Several schools have been contacted to generate interest in Lions Quest Program implementation.
- An informational meeting in early October 2022 for Lions interested in the Lions Quest Program yielded limited interest.
- During the second quarter, the best approach will be to contact schools and seek 30-40 volunteers, Lions and/or non-Lions, willing to implement this program to conduct a training session. Part of the process in determining where the program gains traction for implementation is to survey the prospective volunteers to identify the age group where the Lions Quest Program would begin to work.
- It is expected that the Lions Program will be implemented in at least 2 localities within the District's geographical area by the end of June 2023.

If you have any questions, please let me know.
